

# Count Your Impact

GETTING STARTED WITH OUTCOME-BASED EVALUATION

**Linda Hofschire**

Library Evaluation and Training Consultant

# Welcome!

- ▶ Name
- ▶ Organization
- ▶ City
- ▶ What is something you are looking forward to reading, watching, or listening to this summer?

# Session Outcomes

1. Recognize how outcome-based evaluation (OBE) can benefit your library and community.
2. Develop and/or deepen your understanding of OBE and how logic models are used for OBE.
3. Discover new methods and tools for measuring outcomes.
4. Recognize how OBE can be used for program improvement and advocacy.

Please share:

1. One public-facing program or service that is central to your library

2. One of your library's goals for this program or service

# Logic models

To conduct outcome-based evaluation, we use a logic model.

# Poll

Which of the following statements describe your previous experience with logic models? (select all that apply)

1. I'm new to logic models – no previous experience.
2. I have a basic understanding of what a logic model is but haven't created one.
3. I've attended other logic model trainings.
4. I've created a logic model.
5. I use logic models regularly in my work.

# Logic model

- ▶ A graphical depiction of how a program/ service is supposed to work and what it will accomplish
- ▶ A road map
- ▶ A theory of change

# Logic model

- ▶ Answers the questions:
  - ▶ Where are we (program/service participants) going?
  - ▶ How will we (program/service participants) get there?
  - ▶ What will show that we've (program/service participants) arrived?

# Logic model

# Logic model

Resources used  
to deliver  
programs and  
services. What  
are we  
investing?

**funds expended**

**number of staff**

# Weekly Time Sheet

Start Time	End Time	Regular Hrs.	Ov

**staff hours**

Let's build a logic  
model

# Borrow a Buddy

Caramel

Gracie

Dora

JR

# Borrow a Buddy

- ▶ Pet checkout (cats, dogs, guinea pigs, hedgehogs, iguanas, rabbits)
- ▶ 3-week circulation period, supplies and food are provided
- ▶ Intended outcomes:
  - Improve wellbeing and connectedness
  - Increase confidence

**Moon**

# Your turn: Borrow a Buddy

Resources used to deliver programs and services. What are we investing?

# Borrow a Buddy Logic Model

Inputs	Activities	Outputs	Outcomes
<p>Money for animal care, supplies, and equipment</p> <p>Staff time for developing and running the initiative</p> <p>Space for pets to be housed when not circulating</p>			

# Logic model

What are we doing with the resources to bring about our intended outcomes?

**summer learning  
programs**

**readers advisory**

**time tracking software**

# Your turn: Borrow a Buddy

What are we doing with the resources to bring about our intended outcomes?

# Borrow a Buddy Logic Model

Inputs	Activities	Outputs	Outcomes
Money for animal care, supplies, and equipment	Acquire pets, supplies, equipment		
Staff time for developing and running the initiative	Create care instructions for participants		
Space for pets to be housed when not circulating	Ongoing tasks: checkouts, returns, supply maintenance, pet care		

# Logic model

Participation/  
use of  
materials. How  
many of X were  
provided/  
used?  
Who/how  
many people  
did we reach?

number of programs offered

**total attendance at programs**

**number of minutes spent reading**

# Your turn: Borrow a Buddy

Participation/  
use of  
materials. How  
many of X were  
provided/  
used?  
Who/how  
many people  
did we reach?

# Borrow a Buddy Logic Model

Inputs	Activities	Outputs	Outcomes
Money for animal care supplies and equipment	Acquire pets, supplies, equipment	Number of checkouts	
Staff time for developing and running the initiative	Create care instructions for participants	Number of participant questions answered	
Space for pets to be housed when not circulating	Ongoing tasks: checkouts, returns, supply maintenance, pet care		

# Logic model

Changes in participants after experiencing program/service. What changes do we observe in terms of behaviors, knowledge, attitudes, skills, etc.?

**Children's enjoyment  
of reading increased**

**children maintained  
or improved reading skills**

**children were more likely to read by choice**

# Your turn: Borrow a Buddy

Changes in participants after experiencing program/service. What changes do we observe in terms of behaviors, knowledge, attitudes, skills, etc.?

# Borrow a Buddy Logic Model

Inputs	Activities	Outputs	Outcomes
Money for animal care supplies and equipment	Acquire pets, supplies, equipment	Number of checkouts	Increased confidence caring for a pet
Staff time for developing and running the initiative	Create care instructions for participants	Number of participant questions answered	Increased wellbeing
Space for pets to be housed when not circulating	Ongoing tasks: checkouts, returns, supply maintenance, pet care		

# How to create a logic model

# How to create a logic model

Begin at the end  
and work  
backwards

A logic model can serve as a  
great guide for program  
planning

# Measuring Outcomes

**Sofia**

**Kenny & Widow**

# Measuring outcomes

- ▶ Interview
- ▶ Focus Group
- ▶ Survey

# Interviews and focus groups

# Surveys

After participating in the Summer Reading Program, did your child's reading habits change? Please indicate if the following things increased, stayed the same, or decreased for your child:

	Increased	Stayed the Same	Decreased
Enjoyment of reading			
Reading skills			
Reading by his/her choice			

# Survey— Open-ended questions

Please tell us how the computer  
center helps you or your  
community:

Probably the most valuable resource, dollar for dollar, available to community. I have found jobs... researched... located tax information, and have done schoolwork over the years. Thank you!

The access to the internet afforded by the public library is most probably the only reason I am not completely bereft of any and all computer skills. Were it not for this access, as well as the assistance rendered via classes offered, I would most likely be unemployed if not unemployable.

Program improvement

# Borrow a Buddy evaluation results

Intended Outcomes	Actual Outcomes
Participants gain increased confidence caring for a pet	
Participants gain higher levels of wellbeing	

# Borrow a Buddy evaluation results

Intended Outcomes	Actual Outcomes
Participants gain increased confidence caring for a pet	Very few participants reported increased confidence. Borrow a Buddy staff reported high levels of participant questions and early returns for cats and dogs.
Participants gain higher levels of wellbeing	

# Borrow a Buddy evaluation results

Intended Outcomes	Actual Outcomes
Participants gain increased confidence caring for a pet	Very few participants reported increased confidence. Borrow a Buddy staff reported high levels of participant questions and early returns for cats and dogs.
Participants gain higher levels of wellbeing	Participants reported higher levels of happiness and connection to the community after participating.

# Borrow a Buddy Logic Model

Inputs	Activities	Outputs	Outcomes
Money for animal care supplies and equipment	Acquire pets, supplies, equipment	Number of checkouts	Increased confidence caring for a pet
Staff time for developing and running the initiative	Create care instructions for participants	Number of participant questions answered	Increased wellbeing
Space for pets to be housed when not circulating	Ongoing tasks: checkouts, returns, supply maintenance, pet care		

Demonstrating impact

*"Friendliness of staff and bumping into neighbours makes me feel less lonely."*

*"It provides a meeting place to connect with neighbours and helps me sleep well each night by providing a book to read that helps me to relax and unwind."*

*"Having the library visit has lessened feelings of isolation and brings the wider world to my door. The internet is no substitute for the warmth, and interest of someone really interested in my requirements. Keeps my brain alive." (Quotes from mobiles library users<sup>61</sup>)*

- 88% said the programme increased their opportunities for social contact
- 94% of the participants rated their experience as good or excellent, with important social and personal outcomes such as confidence, feeling included, opportunities for social contact and meeting new people.
- 88% of Reading Friends participants appreciated the increased social contact
- 88% of participants felt it added purpose to their week<sup>63</sup>

*"One of the most important things these case studies show is that public libraries, which exist in every community in every part of the country, are a **population-scale platform** for meeting the **population-scale challenges** of ageing. There are very few other public services which achieve regular personal contact with over one-third of the 75+ population." (emphasis in original)*

## Based on their experience with Check Out Colorado State Parks, patrons are likely to:

Recommend a visit to a state park. **99%**

Buy an annual pass to state parks. **73%**

Buy a day pass to visit a state park. **71%**

One new family was thrilled to see the circulating kits the library has to offer at no charge to them. They did not know libraries had extraordinary items such as this for families to use. Plus, they are able to check out a State Park pass and use it with other kits we have such as animal tracks or birdwatching, which adds even more impact.

We had a couple who have been patrons of our library for many years check out a State Parks backpack for the first time. They were eager to give it a try. When they returned the backpack to us at the end of the week they did so with big smiles, telling us how delighted they were with the experience. This program helped long-time residents see the area they have lived in for many years from a fresh perspective. It helped them to fall in love with the region all over again.

Communing with nature, socializing with members of the community and visiting park amenities made for a great day.

We loved every minute we spent at the parks. We very much look forward to going back again! Thank you for making this possible! Our fun adventures might not have happened without the opportunity to check out this pass.

## Patrons learned about nature, state parks, and libraries.

This park experience helped us learn more about nature:

The Check Out Colorado State Parks program changed my view about what libraries have to offer:

## Caregivers told us:

After participating in RTC...

How did caregivers rate the following?

Offender's relationship with their child

Caregiver's relationship with the offender

"Priceless program with a tremendous impact keeping a connection between my son & his daddy."

"Each child in the world deserves to know and connect with both parents and this program helps to do that."

Let's revisit:

1. One public-facing program or service that is central to your library
2. One of your library's goals for this program or service

Let's revisit:

1. One public-facing program or service that is central to your library
2. One of your library's goals for this program or service
3. List inputs, outputs, and activities for your program or service
4. Create one open-ended question to measure outcomes for your program or service.
